Data Security at Plansee Group

At the Plansee Group, we prioritize the security of data and systems. Security is our priority. The Group's comprehensive security measures ensure that your information is protected at all times.

Our Commitment to Security

We understand the importance of safeguarding the Group and customers' data. That is why we have implemented robust security controls to protect against unauthorized access, data breaches, and other cyber threats.

Advanced Security Technologies

The Plansee Group utilizes state-of-the-art security technologies to provide the highest level of protection. Our solutions include:

Encryption

We use advanced encryption methods to secure your data both in transit and at rest.

Secure Software Development

The Plansee Group follows a secure software development process to ensure that our applications are built with security in mind from the ground up. This includes incorporating security best practices at every stage of development, from initial design to final deployment. Our developers are trained in secure coding techniques and regularly conduct code reviews and security testing to identify and mitigate potential vulnerabilities.

Vulnerability Management

Effective vulnerability management is crucial to maintaining the security of our systems. The Plansee Group employs a proactive approach to identify, assess, and remediate vulnerabilities. We use advanced tools to scan for vulnerabilities and apply patches promptly to address any issues. Our team continuously monitors for new threats and ensures that our systems are up-to-date with the latest security measures.

Continuous Monitoring and Updates

Our security team continuously monitors our systems to detect and respond to any potential vulnerabilities. We regularly update our security measures to stay ahead of emerging threats. We also monitor network traffic for suspicious activity and respond swiftly to potential threats.

Employee Training and Awareness

We believe that security is a shared responsibility. That's why we provide ongoing training and awareness programs for our employees to ensure they are equipped to recognize and respond to security threats.

Compliance and Certifications

The Plansee Group adheres to industry standards and regulations to ensure the highest level of security. Our certifications include:
- ISO 27001: Information Security Management
- ISAE 3402 Type 2
